AN EVENT OF OUTSTANDING IMPORTANCE

The 1958 Transistor and Solid-State Circuits Conference

Cosponsored by: IRE Professional Group on Circuit Theory
AIEE Committee on Solid State Devices
IRE Philadelphia Section
AIEE Philadelphia Section
University of Pennsylvania

Thursday and Friday, February 20-21, 1958

Irvine Auditorium
and
University Museum
University of Pennsylvania

Papers representing original contributions in the transistor and solid-state circuit fields are solicited for presentation at this two-day meeting. Abstracts of 500-1000 words should be furnished not later than October 11, 1957 to R. H. Baker, M.I.T. Lincoln Laboratory, Box 73, Lexington 73, Mass., or to John G. Linvill, Stanford Research Laboratory, Stanford University, Stanford, Calif.

National Committee

Chairman: James H. Mulligan, Jr., New York University, N. Y.

Secretary: Sidney S. Shamis, New York University, N. Y.

Treasurer: Robert Mayer, Minneapolis-Honeywell Regulator Co., Philadelphia, Pa.

IRE-PGCT Representative: Herbert J. Carlin, Microwave Research Institute, Brooklyn Polytechnic Institute, N. Y.

AIEE-CSSD Representative: J. Paul Jordan, General Electric Co., Syracuse, N. Y.

IRE Philadelphia—Section Representative: Murlan S. Corrington, RCA-Victor Television Div., Camden, N. J.

AIEE Philadelphia—Section Representative: Norman A. Koss, General Electric Co., Philadelphia, Pa.

University of Pennsylvania Representative: John G. Brainerd, Moore School of Engineering, University of Pennsylvania, Philadelphia, Pa.

Program Committee Chairman: Richard H. Baker, M.I.T. Lincoln Laboratory, Lexington, Mass.

West Coast Subcommittee Chairman: John G. Linvill, Stanford Research Laboratory, Stanford University, Stanford, Calif.

Public Relations Co-Chairmen: Lewis Winner, Bryan Davis Publishing Co., Inc., N. Y.

Will McAdam, Leeds & Northrup Co., Philadelphia, Pa.

Local Arrangements Committee Chairman: Ralph M. Showers, Moore School of Electrical Engineering, University of Pennsylvania, Pa.

Sponsors Advisory Committee Chairman: Murlan S. Corrington.

► The September, 1957, issue of the Transactions of the Professional Group on Circuit Theory will feature a large number of the papers presented during the 1957 Conference on Transistors and Solid-State Circuits, which was held in February, 1957, in Philadelphia. The issue, the largest ever published, with approximately 200 pages, will also contain over a dozen papers by authorities on the subject of *active networks*. . . . Comparable to a text book, this special edition will provide the most up-to-date and comprehensive coverage of current developments in the field of *active networks*.

Available at: \$2.50 to members of PGCT
\$3.75 to members of IRE
\$7.50 to others

In ordering, please refer to the *Professional Group on Circuit Theory Active Networks Issue*, September, 1957 (CT-4, No. 3), make checks payable to the Institute of Radio Engineers, Inc., and mail remittance to the IRE, 1 East 79th Street, New York 21, N. Y.
